ABOUT US

Rosneft is the leader of Russia's petroleum industry and the world's largest publicly traded oil and gas company. Our main activities include prospecting and exploitation of hydrocarbon deposits of oil, gas and gas-condensate production, refining and distribution of oil products, petrochemicals, as well as oil, gas, and petrochemical trading in Russia and abroad.

The Company is included in the list of strategic companies and organizations of Russia. Company's largest shareholder, 50.000000% of the share is JSC ROSNEFTGAS, fully owned by the Russian Government, while BP holds 16.73% of shares, OJSC shares are 14.14% and 18.6% of shares are held by the state represented by Federal Agency for State Property Management, whereas the remaining shares are free floating (see Shareholding Structure).

Rosneft's objectives are the asset replacement rate at a minimum level of 100%, effective production at conventional and production increase through the development of greenfields, creation of new production clusters, onshore development of technologies, and implementation of highest project management practices, monetization of gas reserves and competitive evaluation of assets, approval of contribution of the reserves and investment of profits in distribution. Company's successful performance in 2016 is evidence of the effectiveness of the applied strategy and the significance of our priorities. All this makes it possible to rely on Rosneft's sustainable development in the future to benefit its shareholders.
